5. Principles of measuring the use of services and payment of fees

- 5.1 Measuring the use of services is done based on automatically counted messages/transactions, initiated by or received from BAE or BIC.
- 5.2 Counting of the quantity of transactions executed by BISERA6
- 5.2.1 The services include execution of credit transfers, direct debits and transmission of payment information.
- Payment is due from both the sending participant and the receiving participant.
 - Transmission of payment information covers all messages that do not result in settlement in RINGS or instant settlement on the Special Account of BORICA AD in RINGS.
- 5.2.2 In the execution of an 'Interbank payment order from/to the budget (multilayer)' only the sending participant is charged.
- 5.3 Counting of the use for 'Services using BISERA6'
- 5.3.1 The service 'Transmission of information to SEBRA'
- For the account of the sending BAE, messages MT 101 directed to SEBRA are counted.
- 5.4 For payments executed by BISERA6 by FIN messages to ensure the rhythmic receipt of information, its timely processing and transmission to RINGS of the settlement request, the following are introduced:
- 5.4.1 Time zones for counting and payment of services, as follows:
- 5.4.1.1 First zone – from 15:45:00h. on day D-1 to 09:29:59h. on day D, from 9:45:00 on day D to 12:59:59 on day D, from 13:15:00 on day D to 15:29:59 on day D;
- 5.4.1.2 Second zone – from 9:30:00h. on day D to 9:44:59h. and from 13:00:00h. on day D to 13:14:59h. on day D, from 15:30:00 on day D to 15:44:59.
- Note:** When the time for acceptance of information from participants in BISERA6 is extended, the deadline for acceptance of information is considered to be the deadline for the second zone.
- 5.4.2 The time zones are subject to change upon changes in the RINGS Schedule for submission of settlement requests.
- 5.4.3 Files received in BISERA6 in non-business days are counted in the 'First' zone.
- 5.4.4 The time for recording of a file in BISERA6 is determined according to the clock of the central server of BISERA6.
- 5.4.5 All messages/transactions submitted in the 'Second' zone are charged at the prices for the 'Second' zone.
- 5.4.6 The time zones are subject to change upon changes in the RINGS Schedule for submission of settlement requests.
- 5.4.7 The time for recording of a file in BISERA6 is determined according to the clock of the central server of BISERA6.
- 5.5 At the beginning of each month, the fees for processing of transactions in the previous month are paid.

5.6 Certification for services in BISERA6

- 5.6.1 Certification for the service in BISERA6 under code B6.03.01.010 is invoiced with a one-off fee, based on a written application for performance of the respective service. The fee is paid before the beginning of the certification tests.

The invoicing with one-off fees for the services under codes B6.03.01.020 and B6.03.01.021 is performed based on a written application for inclusion and provision of access to BISERA6.

- 5.6.2 Certification for the services under codes from B6.03.01.030 to B6.03.01.050 is paid in two stages - 50% of the fees are invoiced at start-up, and the remaining 50% at the end of the certification process.

The start of the certification process is the day from which the relevant Bank / PSP is included in the test environment (based on the Form received from the client - Appendix 7 of the BISERA6 Rules). Completing certification is the date of issuance of a Certificate for successfully conducted tests.
